

Alessandro Kosowski
Graphic designer

Portfolio

Graphic designer based in Trento, Italy, working across visual identity, print, digital content and motion design.

Adobe Creative Cloud, Figma, Cavalry, Blender, AI.

About me

Cassa Rurale
AltoGarda
Rovereto

Cover design for the 2027 agenda of Cassa Rurale AltoGarda Rovereto, a regional cooperative bank with 47 branches and more than 95,000 customers. Developed during my internship at Graffiti Studio; the first proposal was selected for production.

2027 agenda

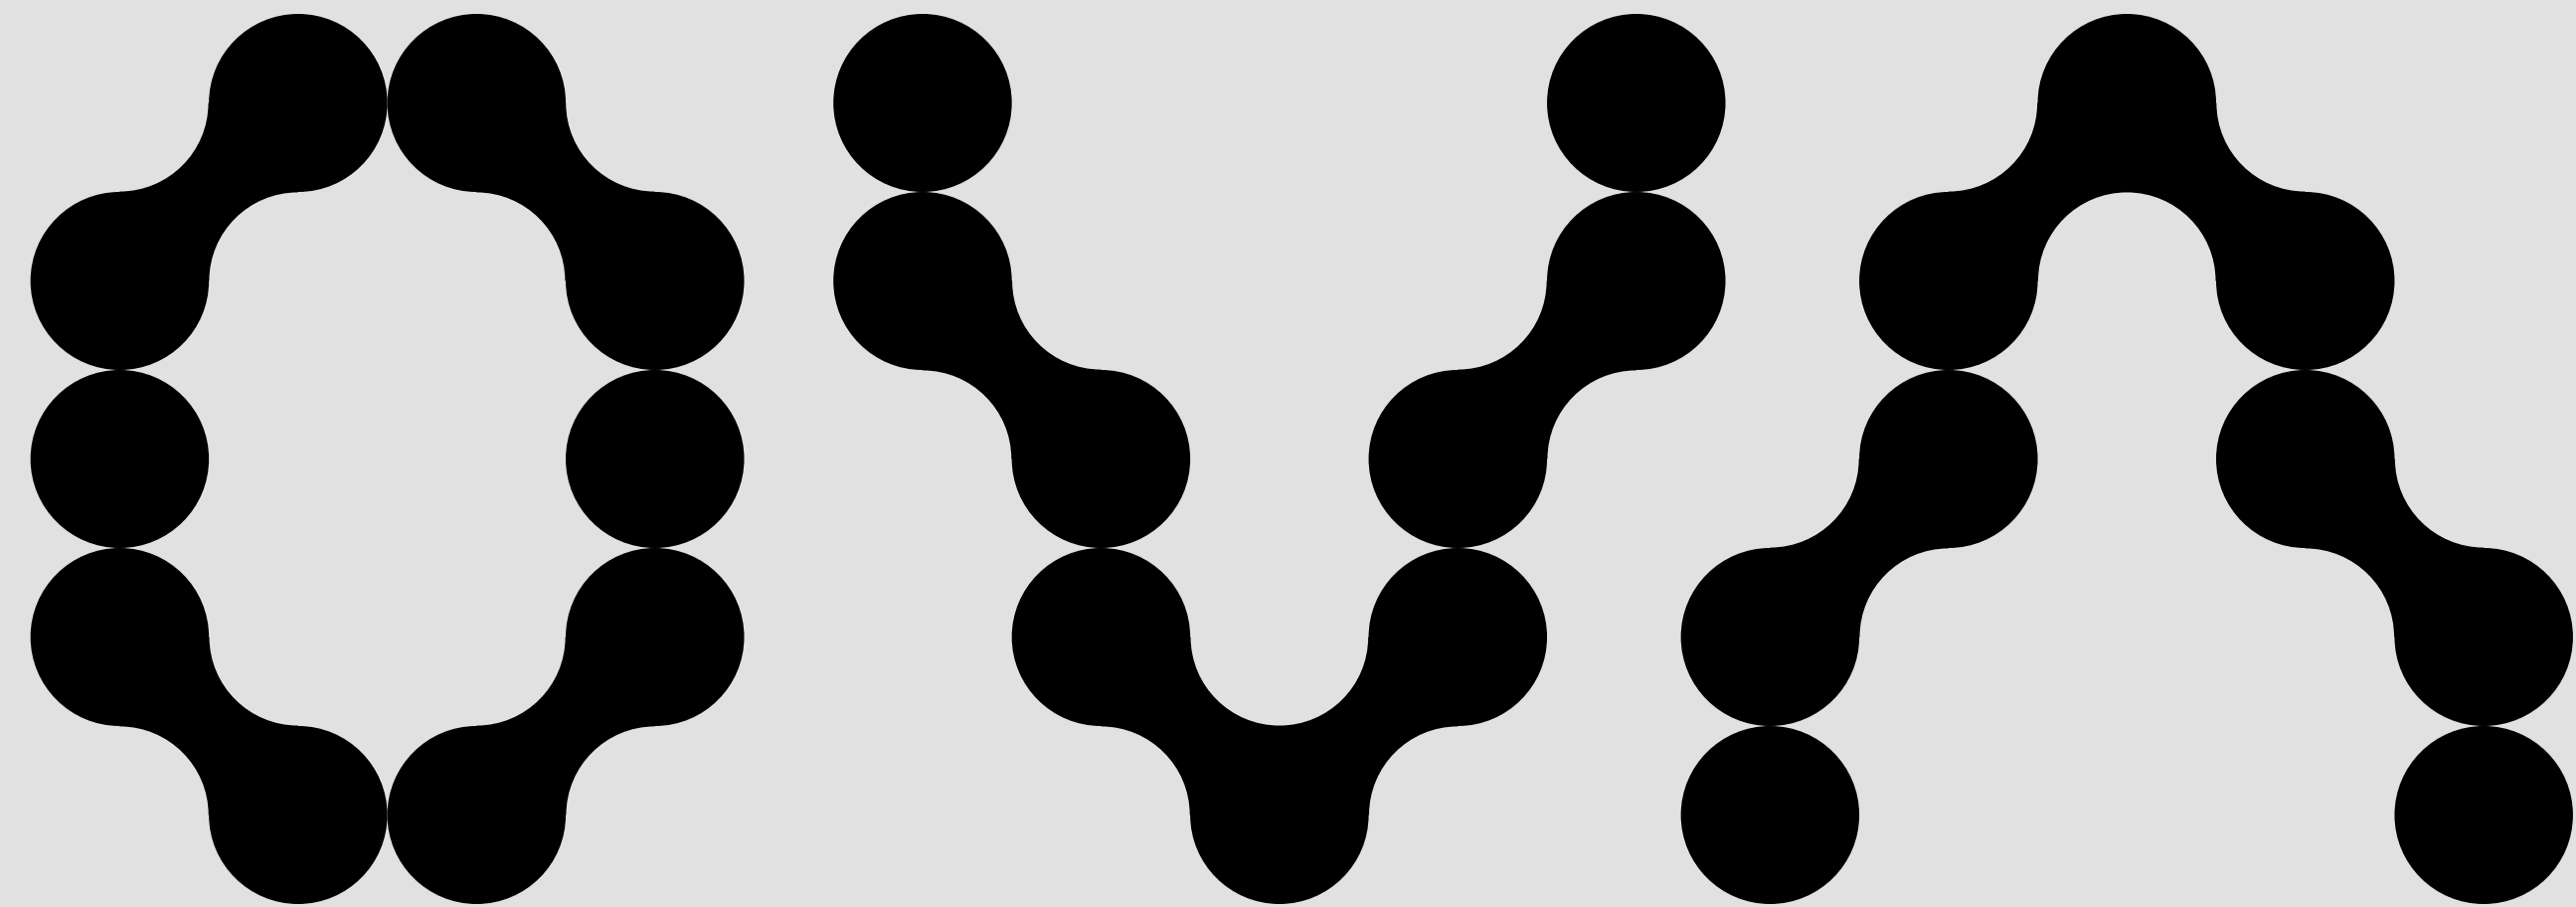

Two additional cover proposals developed during the same concept phase.

2027 agenda

OVA

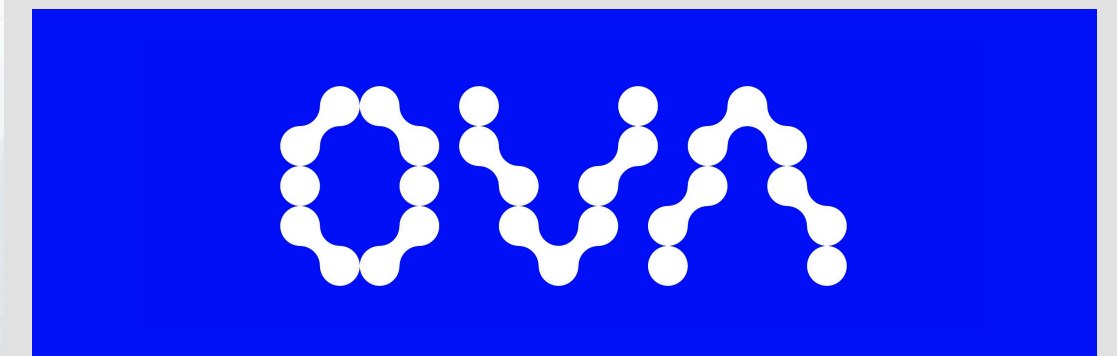

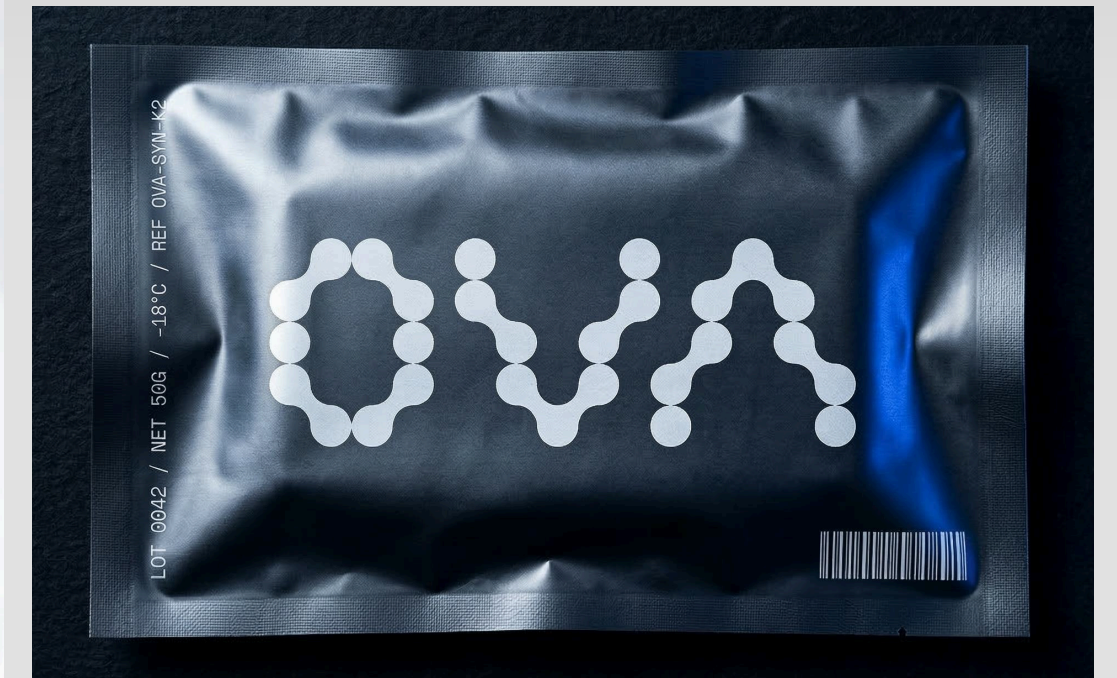

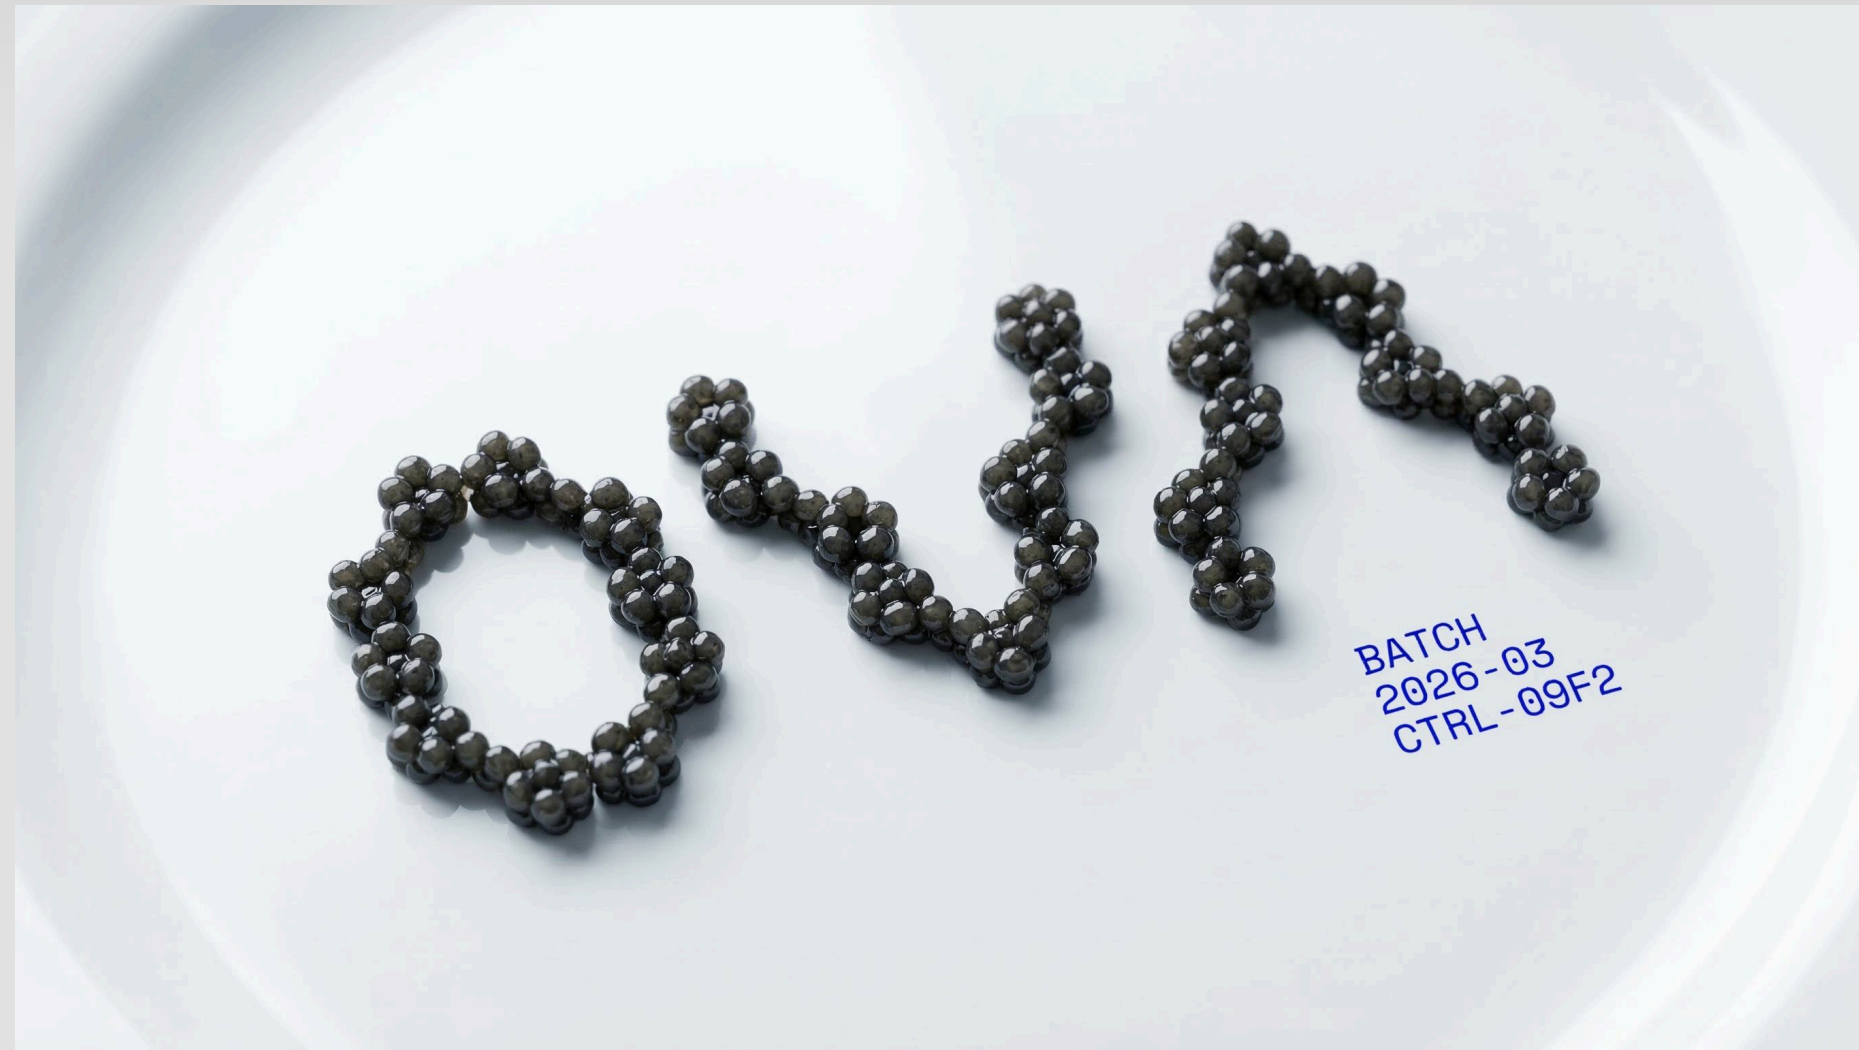

OVA is a self-initiated identity for a fictional synthetic food product. The project translates the structure of fish roe into a modular wordmark and a cold, laboratory-inspired visual system spanning packaging, product imagery and motion.

Branding

OVA

The identity extends across speculative packaging and product formats, using reflective materials, sterile photography and a restricted black, white and electric-blue palette to position OVA between food, biotechnology and consumer product.

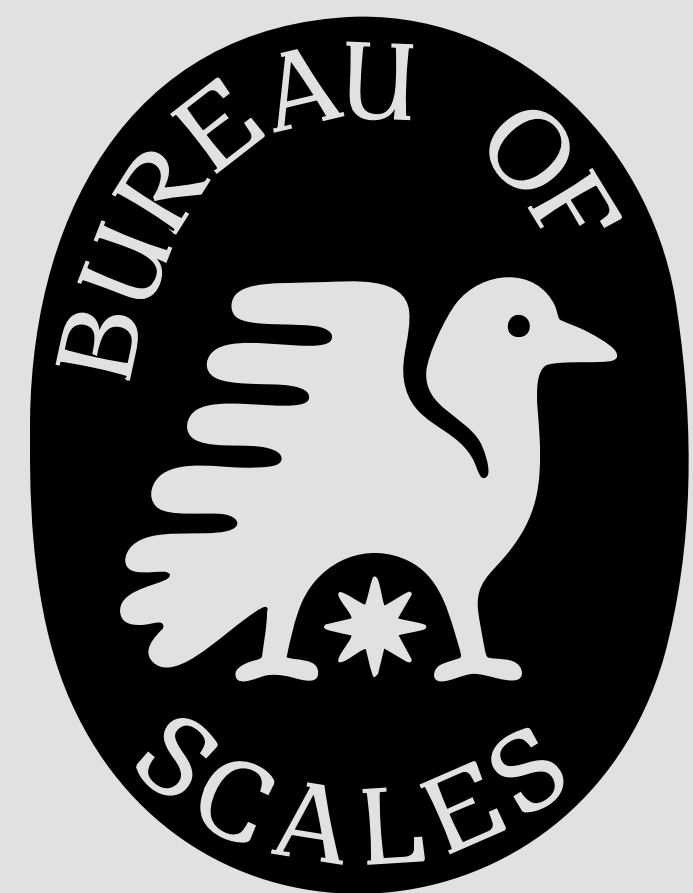

Branding

Bureau of Scales

Bureau of Scales is an independent astrology platform publishing long-form analysis across Substack, TikTok and Reddit. The brief was to create an identity that felt informed and editorial.

Two identity directions, currently shown as early-stage visual explorations.

Crow direction

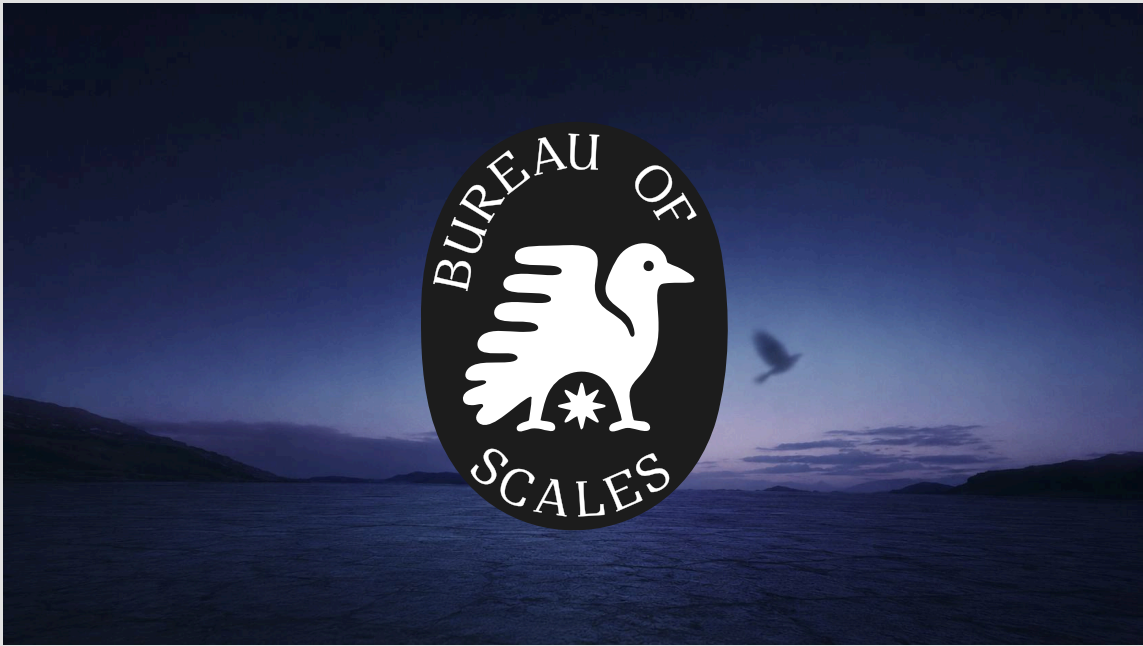

Monogram direction

Branding

Bureau of Scales

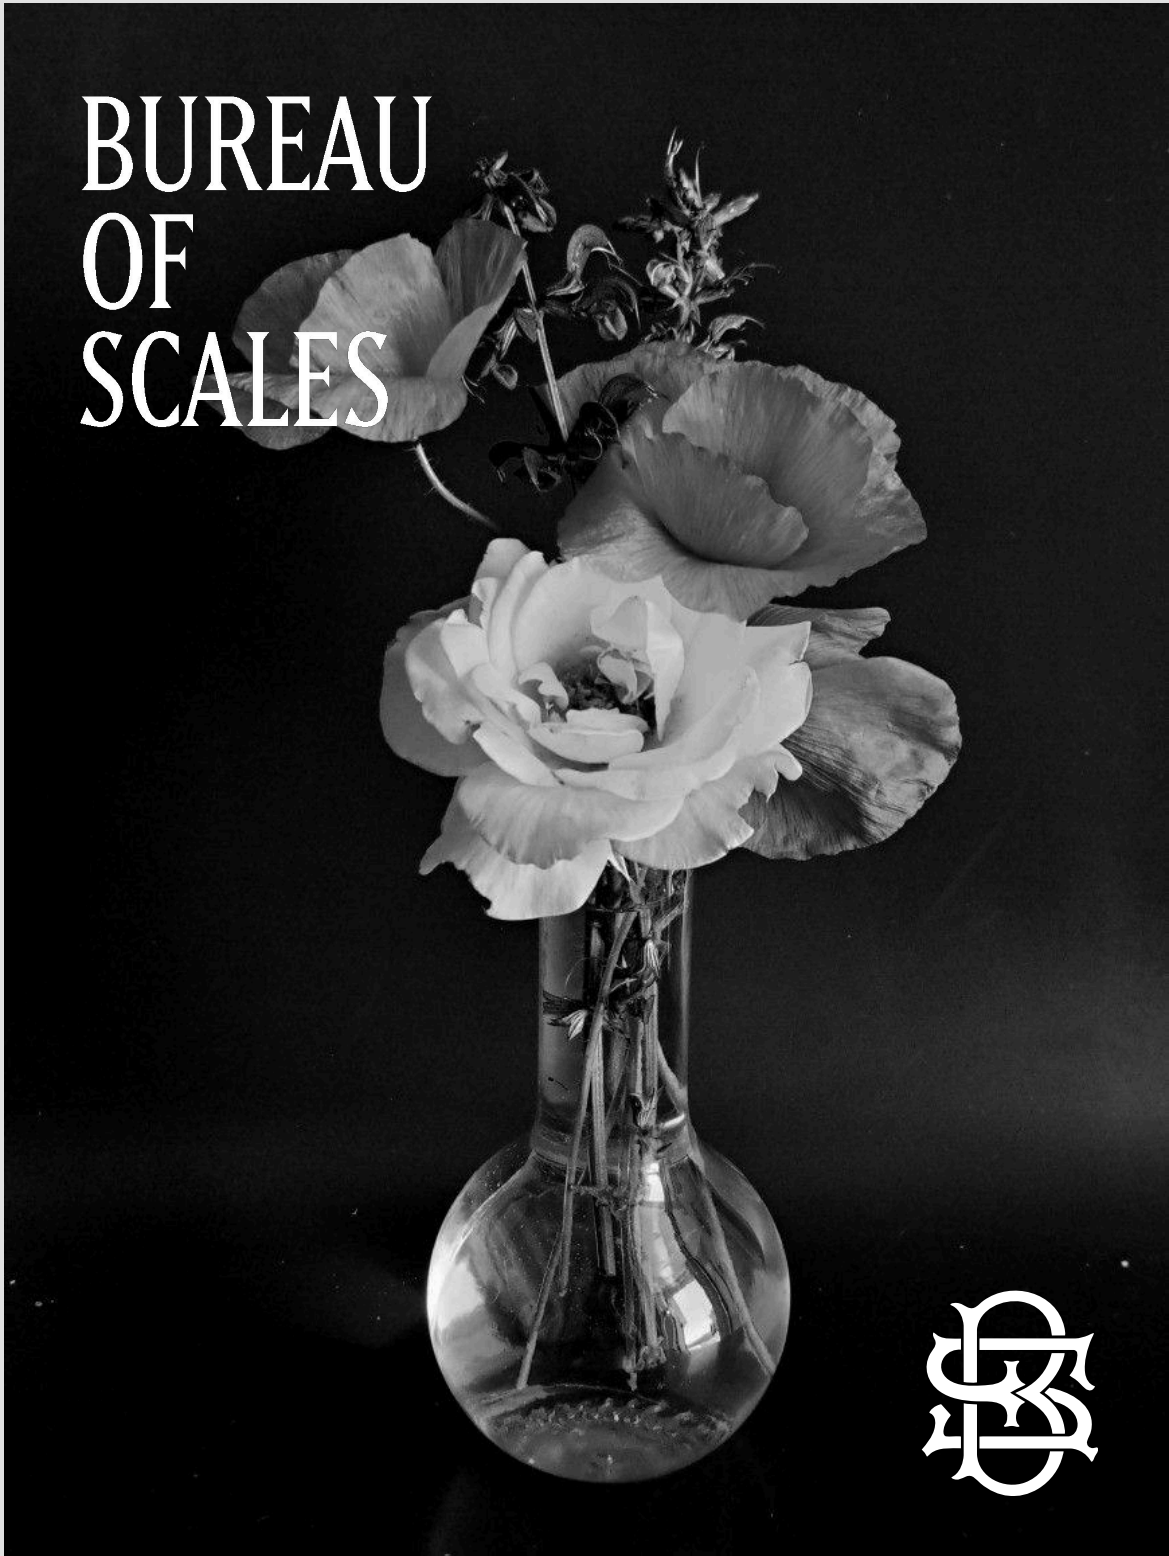

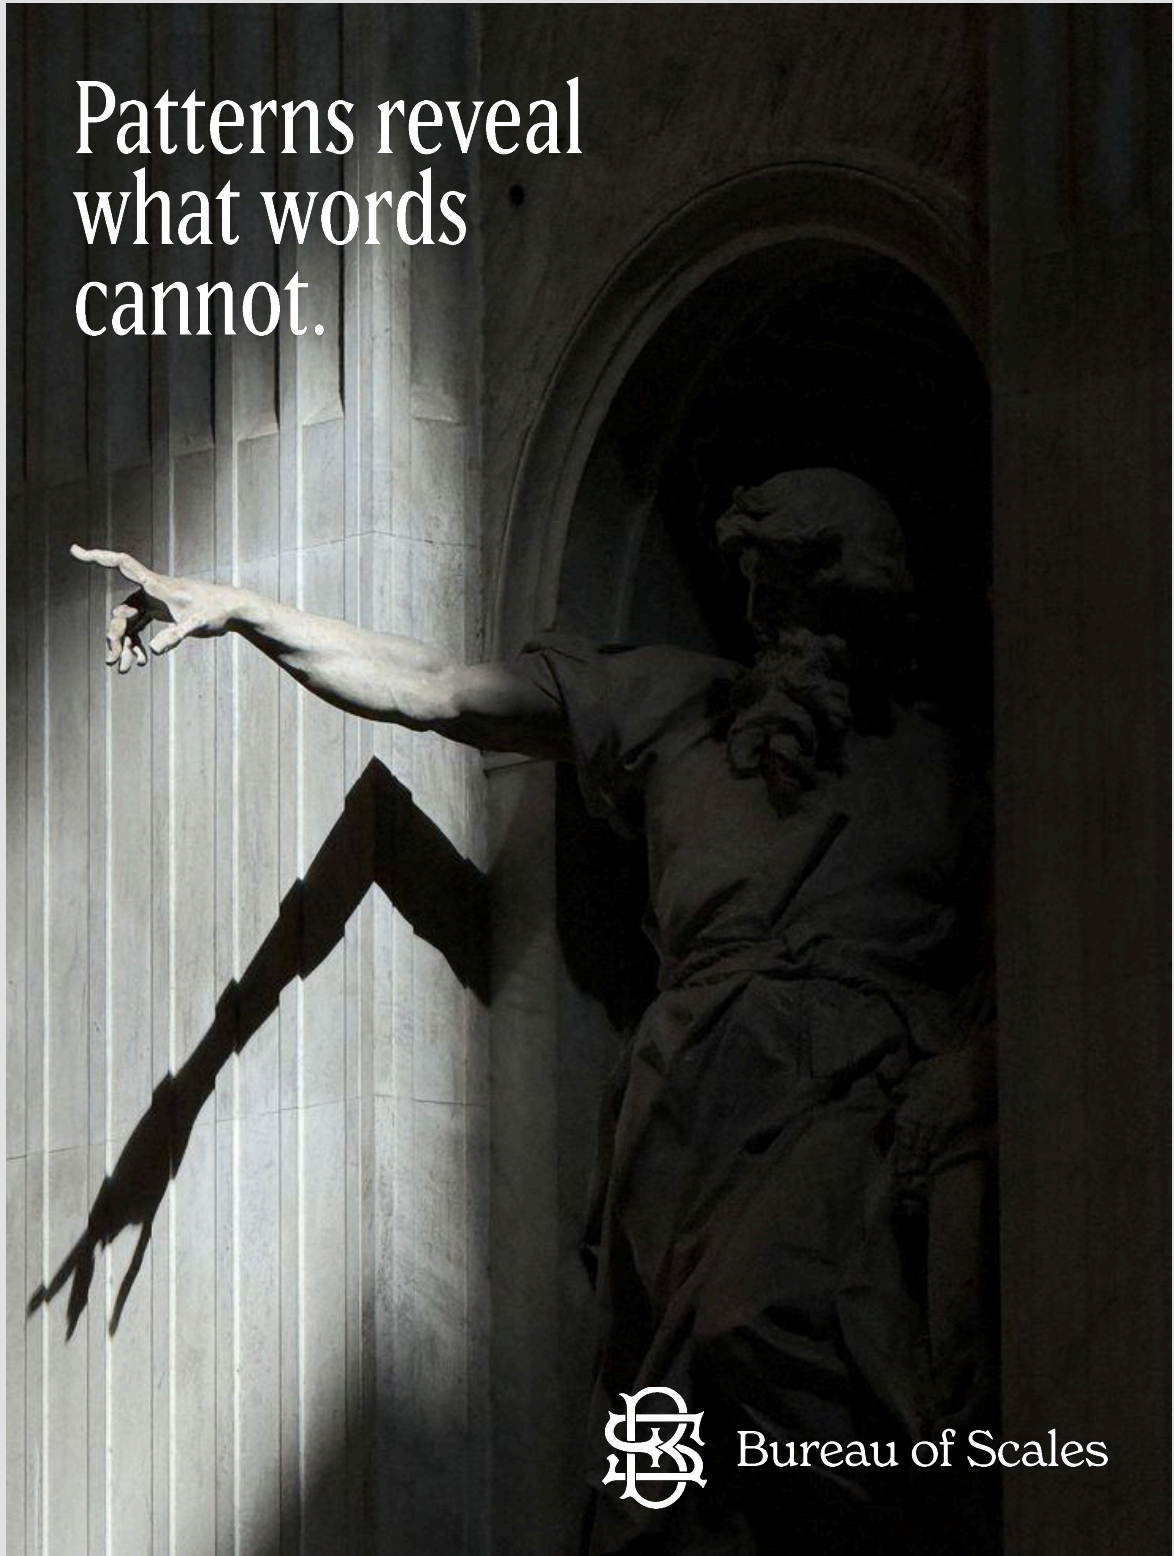

A contemporary editorial direction combining nocturnal blue imagery, direct copy and a symbolic crow emblem.

Branding

Bureau of Scales

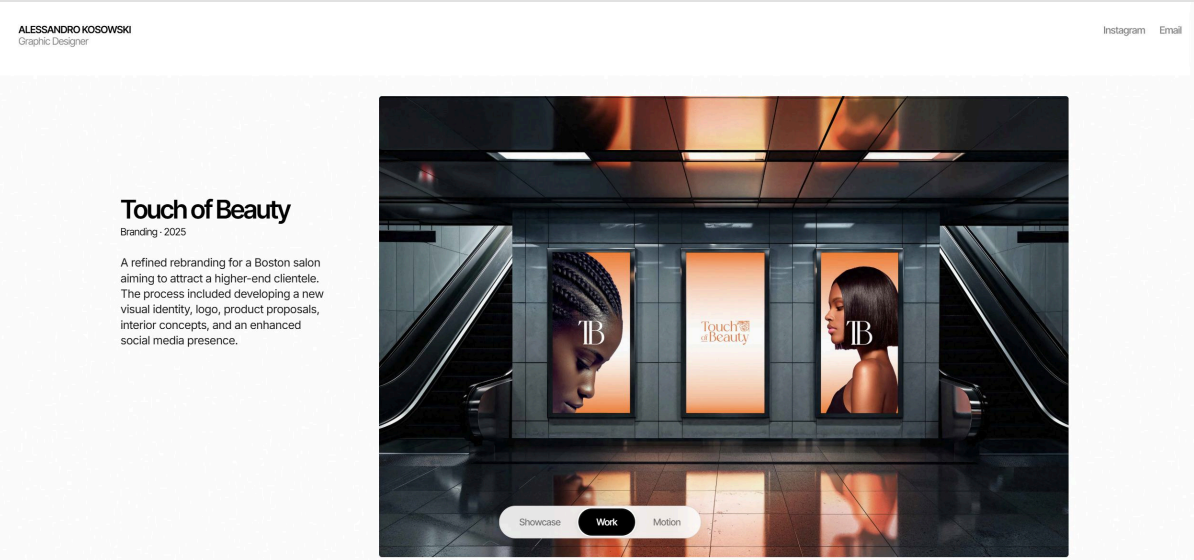

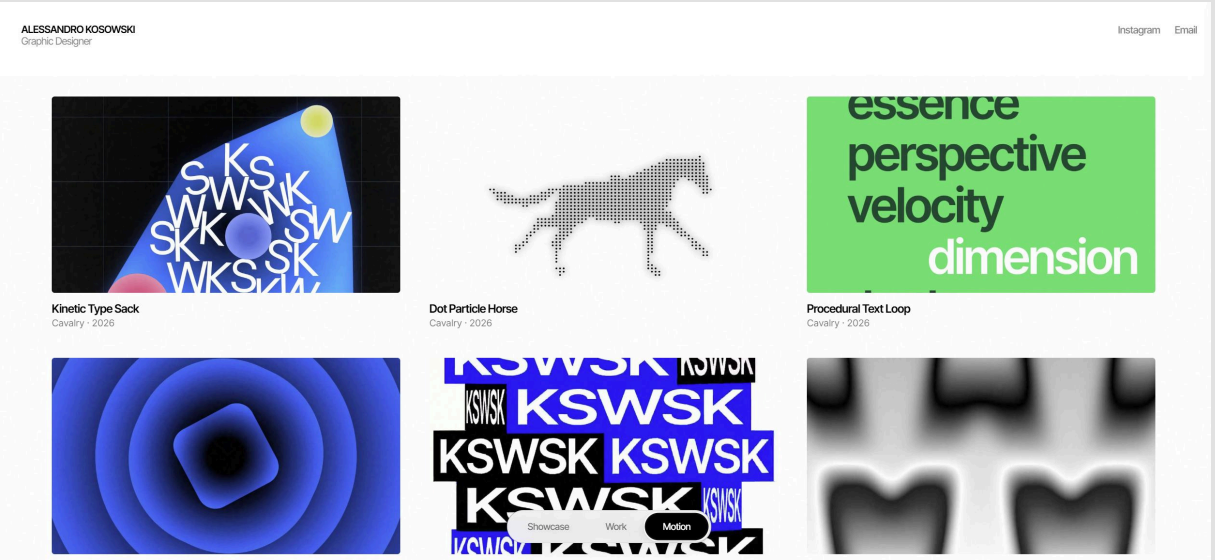

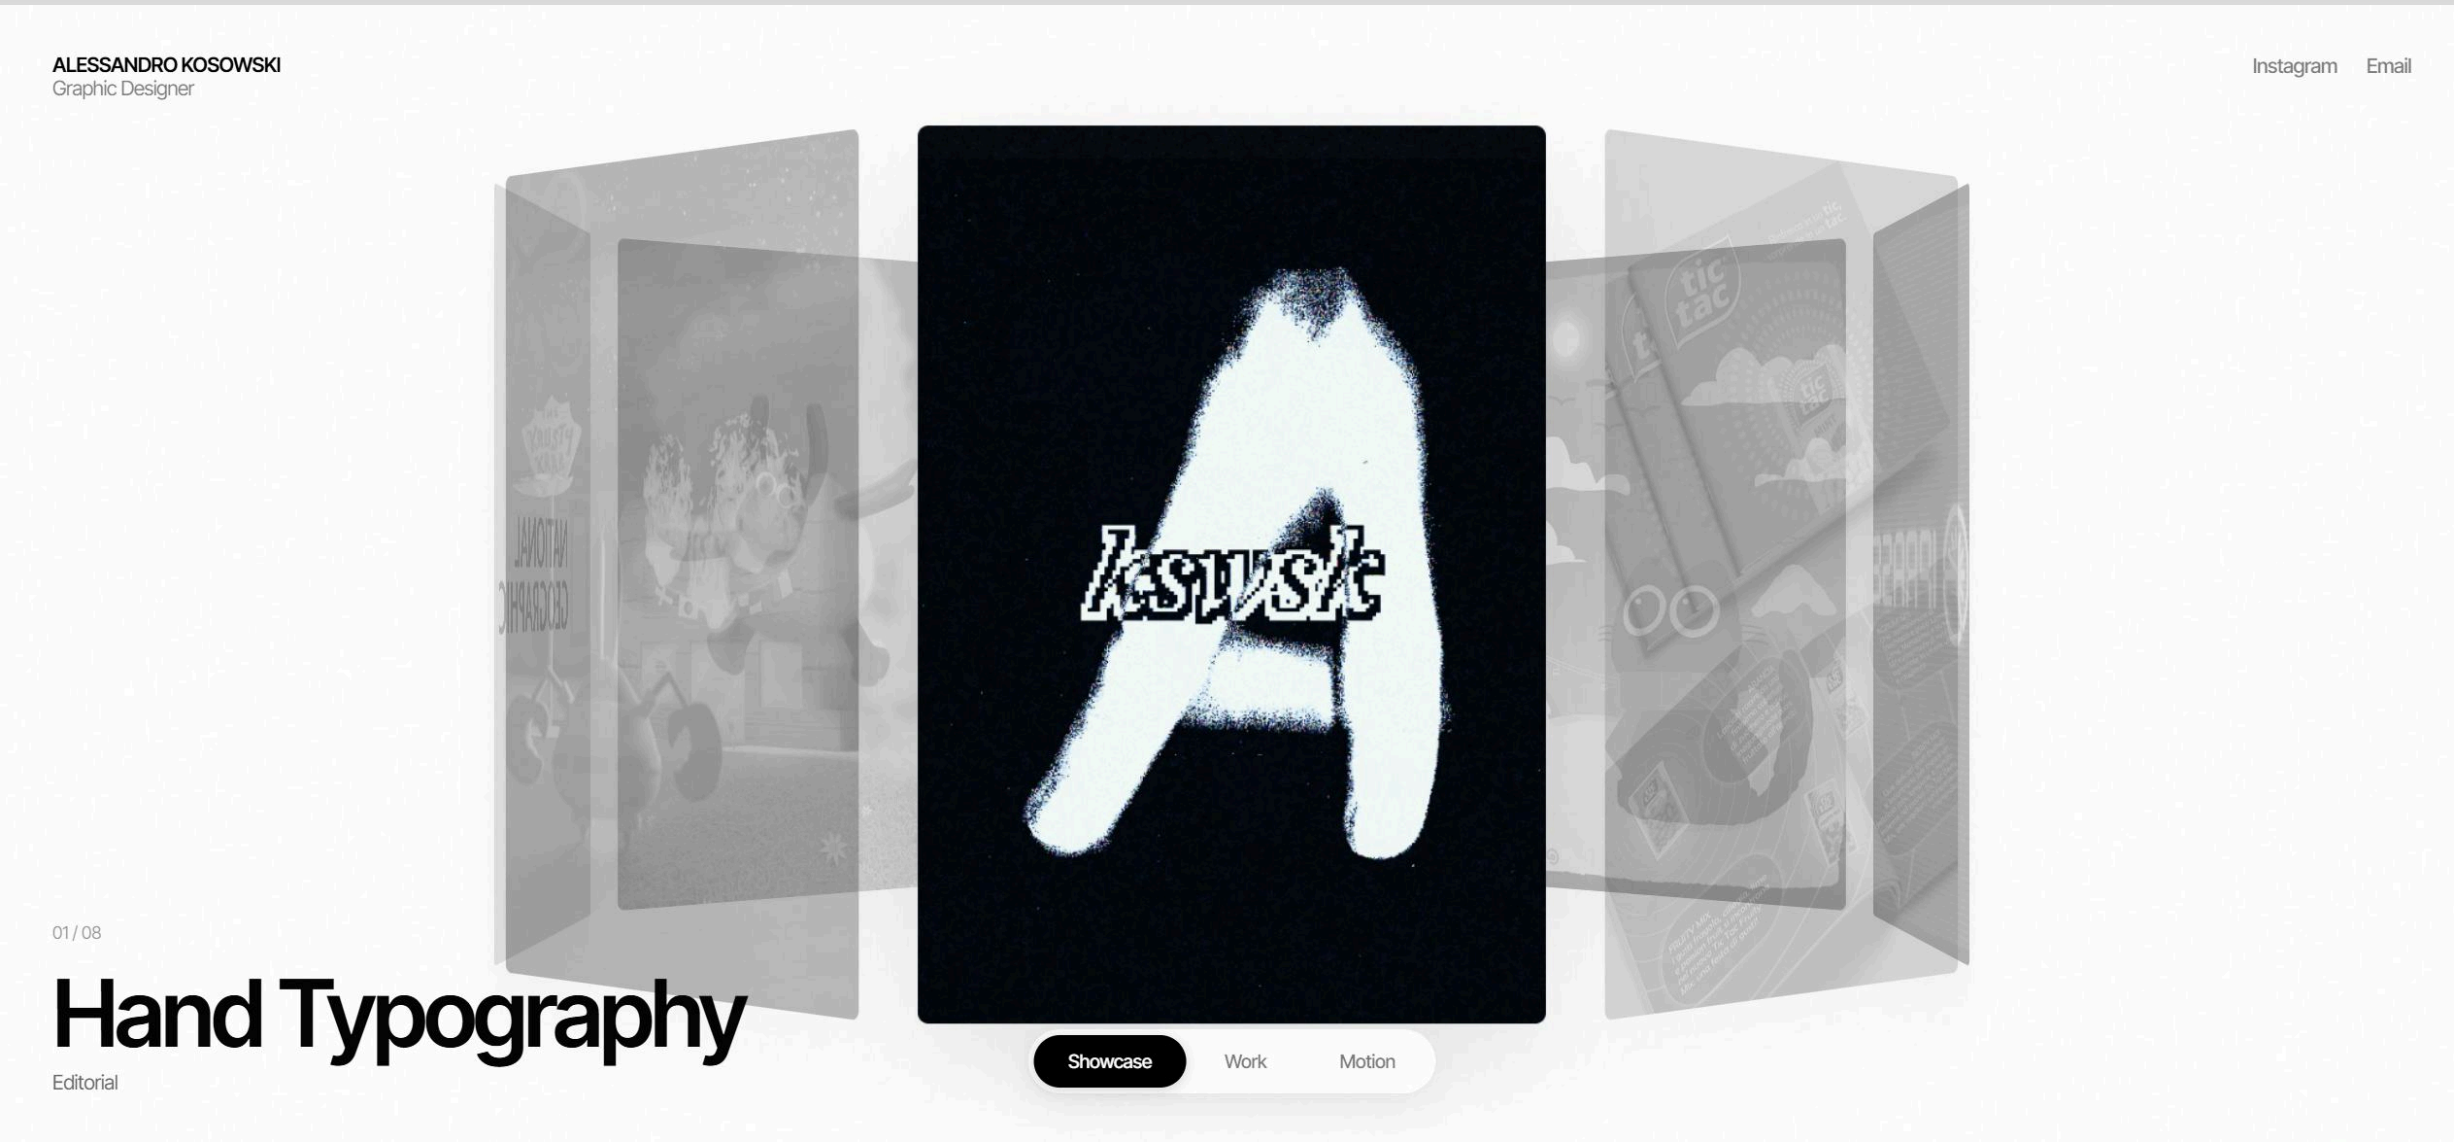

A more institutional direction built around a medieval-inspired monogram, monochrome imagery and an archival visual language.

Branding

Personal portfolio website designed and developed to present selected work through a simple and interactive interface. The website also includes a selection of motion experiments and smaller visual studies.
